中南大学湘雅医学院医药信息系简介

一、 历史沿革

中南大学湘雅医学院医药信息系的前身是原湖南医科大学医学图书情报学系，成立于 1987 年 4 月，同年秋季开始招生。……

二、 专业设置

1、 本科专业

1987~1998 年期间为图书情报专业（医学、药学），学制五年；

1999~2002 年期间为信息管理与信息系统专业（医学、药学），学制五年，管理学门类；

2003 年至今为医学信息学专业（目前全国唯一），学制四年，属理学门类。

Introduction to the Department of Medical Information, Central South University Xiangya School of Medicine

One, History

The Department of Medical Information, Central South University Xiangya School of Medicine, whose predecessor is the Department of Medical Library and Information Science, Hunan Medical University, was established in Apr. 1987. It started to recruit students in the fall of the year. ...

Two, Majors

1, Undergraduate Major

From 1987 to 1998, the Major was under the name of Library and Information (in Medicine and Pharmacy), a four-year program.

From 1999 to 2002, the Major was under the name of Information Management and Information Systems (in Medicine and Pharmacy), a five-year program, in the category of Management Science.

From 2003 to present, the Major is under the name of Medical Informatics (presently the only one offering such majors in China), a four-year program, in the category of Science.

[11] Objective of the Department of Medical Information

<http://www.xysm.net/cmti/jiaoxuegongzuo/peiyanmubiao.htm>

培养目标

医学信息学

1.培养目标

本专业旨在培养具有医学专业知识、现代管理学理论基础和信息科学基础知识与基本技能，拥有计算机科学技术知识及应用能力的应用型、复合型高级专门人才。学生毕业后能从事以医药卫生领域为主,并覆盖其他各行业领域的信息管理、信息服务、信息资源开发和利用、信息研究、信息教育以及信息系统开发与管理等各方面工作。

2.基本规格要求

本专业学生主要学习医学、药学、医药卫生管理、信息资源开发与利用、信息系统分析与设计等领域的基本理论与技术，具备从事信息资源开发、管理和利用各环节的实际工作能力，以及具有较强的计算机应用能力和较高的外语水平。

4.主干学科

医学、信息科学和信息技术、管理学

5.主要课程和特色课程

主要课程:医学信息学概论、管理学原理、信息组织、医学文献主题标引、信息检索、医院信息系统、管理信息系统、信息研究、数字图书馆、卫生信息资源、知识产权、医药市场信息等。

特色课程:医学文献主题标引、信息检索、医院信息系统、临床决策系统、病案信息管理、生物信息学概论、循证医学。

6.学制与学位

学制: 四年

学位: 理学学士

Objective of Education

Medical Informatics

1. Objective of Education

The objective of the Major is to train advanced specialists with professional knowledge in medicine, basic knowledge and basic skills in modern management science and information science, as well as knowledge and capabilities of the application of computer science and technology. After graduation, students can undertake various tasks mainly in the fields of medicine and health, also covering other industry sectors, including information management, information service, information resources development, information research, information education, and development and management of information systems.

2. Basic Requirements

Students in this major mainly study the basic theories and technologies in the fields of medicine, pharmacy, medicine and health management, information resources development and utilization, information systems analysis and design. Students should possess practical abilities in various aspects of development, management and utilization of information resources. Students should also possess strong computer application abilities and high-level foreign languages.

4. Main Disciplines

Medicine, Information Science and Information Technology, and Management Science.

5. Main Courses and Featured Courses

Main courses: Introduction to Medical Informatics, Theory of Management Science, Information Organization, Medical Literature Subject Indexing, Information Retrieval, Hospital Information Systems, Management Information Systems, Information Research, Digital Libraries, Health

Information Resources, Intellectual Property, and Medicine Market Information.

Featured Courses: Medical Literature Subject Indexing, Information Retrieval, Hospital Information Systems, Clinical Decision-Making System, Medical Record Information Management, Introduction to Bioinformatics, Evidence-Based Medicine.

6. Length of Schooling and Degree Conferred

Length of Schooling: 4 years

Degree Conferred: Bachelor of Science
